Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/19/04 has been entered.

Allowable Subject Matter

The indicated allowability of claim 49 is withdrawn in view of the newly discovered reference(s) to Lawes et al. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 49 is rejected under 35 U.S.C. 102(b) as being anticipated by Lawes et al. (5,176,681).

With respect to claim 49, lawes et al discloses an intramedullary nail (1), transverse opening (2), longitudinal passage (3), a bone engaging member (5) tsized to pass through the transverse opening, positioning device (4) disposed in and being

adjustable in the longitudinal passage to move the engaging member and compress or distract the bone fracture.

Allowable Subject Matter

Claims 3-5, 7,8,10-12,15, 53-55 are allowed.

Claims 50-52 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
